SUPPLEMENTAL AMENDMENT

Sir,

25

This supplemental amendment is provided to correct an error in an amendment filed
February 10, 2004 in the above-named application. The original amendment was filed in
response to the Office Action under *ex parte Quayle* dated December 19, 2003. Although
the restriction requirement applied to Claims 56-63, Applicant inadvertently stated that
30 Claims 56-62 were subject to a restriction requirement, and that Claims 56-62 had been
cancelled from the application. The error was confined to the remarks; the listing of Claims
correctly reflected the state of the Claims. Applicant again provides a listing of Claims that
accurately reflects that Claims 56 – 63 are cancelled from the application.

35

CONCLUSION

This supplemental amendment disposes of all remaining informalities, thus putting the application in condition for allowance. Therefore, the Examiner is earnestly requested to
5 withdraw any remaining objections in order that the application may pass to issue as a United States Patent. Should the Examiner have any questions regarding the Application, she is urged to contact the Applicant's attorney at the telephone number given below.

10 Respectfully submitted,

Michael A. Glenn
